Preparation and Cutting Out

1 The quilt is made up of repeating rectangular blocks joined into columns. Each block is made up of five different print fabrics and there are four different blocks. The fabrics used for the quilt are shown in **Fig A** and the quilt layout in **Fig B**.

2 To cut the rectangles for the blocks, follow **Fig C**. Each individual rectangle needs to be cut $4\frac{1}{2}$ in x $2\frac{1}{2}$ in (11.4cm x 6.4cm). Cut fourteen rectangles from each of Fabrics 1 to 20. Arrange the rectangles in groups as shown in the diagram.

3 The vertical sashing strips are $2\frac{1}{2}$ in (6.4cm) wide and use Fabrics 21, 22 and 23 in a repeating pattern – see **Fig D**.

From Fabric 21 cut six $2\frac{1}{2}$ in (6.4cm) x width-of-fabric strips. Join these together end to end to make a strip at least 212in (538.5cm) long. Now sub-cut this into three strips each $2\frac{1}{2}$ in x $70\frac{1}{2}$ in (6.4cm x 179cm).

Repeat this cutting and sewing with strips of Fabric 22 and Fabric 23.

4 Cut the backing fabric in half across the width. Sew together along the long side and trim to a piece about 59in x 79in (150cm x 200.6cm).

5 From the binding fabric cut seven strips $2\frac{1}{2}$ in (6.4cm) x width of fabric. Sew together end to end and press seams open. Press in half along the length, wrong sides together.

Sewing the Blocks

6 Take the five rectangles for Block 1 (Fabrics 1, 2, 3, 4 and 5) and sew them together into a column (**Fig E**). Press the seams in one direction. Repeat with the pieces for Block 2, Block 3 and Block 4. Repeat again until you have fourteen of each block.

Assembling the Quilt

7 Follow **Fig F** to arrange seven blocks as shown (Block 1, 2, 3, 4, 1, 2, 3). Sew them together and press seams in one direction. Repeat this to sew the other seven columns of the quilt, following the quilt layout in **Fig B** for the order of the blocks.

8 Lay out the sewn columns with the sashing strips between them and at each end. Note that the order of the sashing repeats from the left-hand side of the quilt. Begin sewing the sashing strips to the columns of blocks, as shown in **Fig G**, pressing the seams in one direction.

Quilting and Finishing

9 Make a quilt sandwich of the backing fabric, wadding (batting) and quilt. Quilt as desired. Square up the quilt, trimming excess wadding and backing.

10 Use the prepared double-fold binding strip to bind your quilt. Pin the raw edge of the folded binding against the raw edge of the quilt front (don't start at a corner). Using a $\frac{1}{4}$ in (6mm) seam, sew the binding in place, starting at least 6in (15.2cm) away from the end of the binding. Sew to within a $\frac{1}{4}$ in (6mm) of a corner and stop. Take the quilt off the machine and fold the binding upwards, creating a 45-degree angle. Hold this in place, fold the binding back down and pin it in place. Begin sewing the $\frac{1}{4}$ in (6mm) seam again from the top of the folded binding to within $\frac{1}{4}$ in (6mm) of the next corner and then repeat the folding process. Do this on all corners. Leave about 6in (15.2cm) of unsewn binding at the end.

11 To join the two ends of the binding, open up the beginning and end of the binding tails, lay them flat and fold the ends back so the two ends touch. Mark these folds by creasing or with pins – this is where your seam needs to be. Open out the binding and sew the pieces together at these creases with a straight seam. Trim off excess fabric and press the seam. Refold the binding and finish stitching it in place on the front of the quilt.

12 With the quilt right side up, use a medium-hot iron to press the binding outwards all round. Now begin to turn the binding over to the back of the quilt, pinning it in place. Use matching sewing thread and tiny stitches to slipstitch the binding in place all round, creating neat mitres at each corner. Press the binding and your cosy quilt is finished.
